

CHIPPING OF TREE LIMBS

REMINDER TO RESIDENTS, WE DO CHIPPING ON FRIDAYS DURING THE SPRING AND SUMMER. HERE ARE A FEW THINGS THAT WE CAN NOT DO:

1. Any type of shrub that has roots and dirt attached. It damages the machine.
2. We would appreciate anything put out there be free of vines. We can not chip due to safety issues.
3. We are not a tree service. If a tree is being removed professionally, let them do the entire job.

Our service is to help with normal yard waste. If you were to personally remove limbs, we can help you out.

We will continue this service through the summer every Friday. You **MUST** call the township by Thursday of each week to be placed on a list.

If you are interested in having the chippings dropped off at your house, contact the township administration building.
